

DELIGHTED! GLAD TO KNOW YOU GET ACQUAINTED

Clearfield wants to get better acquainted with her neighbors. Friend-making is the principal object of this publication. We want to know you better and work with you for the up-building of the business interests of Central Pennsylvania.

As a message to leave with you, we suggest that you adopt our motto: "Trade at Home." Buy at home. Patronize your local dealer.

Every dollar expended or invested in this part of Pennsylvania is certain to build up and enrich the home town. It will help pay taxes, construct and maintain good roads, build and maintain schools, churches, libraries, manufacturing plants, and do scores of other things that need to be done at home and to which your home town is entitled. Buying at home is a sign of sound business judgment on the part of the people.

If your local dealer can not supply some of the things you require, try Clearfield, where we are confident the most discriminating will find the articles desired.

Trade in our home trading zone. Money sent a hundred miles or more from home seldom finds its way back. Keep as much of the money here as possible and invest it here whenever feasible. Very few of the many large fortunes made from Clearfield's vast timber tracks (now gone forever) were made by men residing here. Only a small portion of the money was reinvested in the Clearfield district. We should try to so shape the future development of our natural resources, now largely mineral, that the maximum amount of dollars possible remain within our own territory.

One hundred thousand people, the population of Clearfield County, trading at home, means plenty of business for all.

There are large manufacturing possibilities in Central Pennsylvania, due to central location, rich coal and fire clay veins, splendid railroad facilities, unsurpassed water supply, cheap fuel and power, and local conditions that are favorable to producing and marketing goods at a profit. These advantages are being used by a large and increasing number of manufacturers. A still larger number of factories may be encouraged to locate in this section if all of the towns continue to push their splendid advantages to the front. A dozen or more live towns constantly advertising their advantages would be certain to produce good results.

Clearfield now manufactures the following products: fire brick, paving block, building brick, sewer pipe and drain tile, refrigerators, sole leather, cut glass, silk velvet, brick and grinding machinery, complete installations for fire brick plants, wet and dry pans and pan emptiers for the clay working trade, general machinery, hand knitting machines, commercial stationery and school supplies, brooms, building materials, cement blocks, glass sand, confectionery, ice cream, pasteurized milk, and soft drinks.

Clearfield has a number of other plants of an industrial nature, including marble and granite works, large and up-to-date steam laundry, railroad yards and car repair shops.

Clearfield jobbers sell at wholesale—groceries, provisions, flour and feed, fruits, ice cream, hardware, mine and mill supplies, builders' supplies, electric supplies and equipment, commercial stationery and school supplies.

Clearfield's retail stores are unsurpassed in towns of its class for extent and variety of stock. If your wants can not be fully supplied at home, they can undoubtedly be met in Clearfield.

Clearfield's splendid hotel accommodations are known far and wide. Tourists find it an unusually attractive stopping-over place. Excellent roads throughout the district.

Clearfield's shipping facilities and financial institutions are of the very best. None better anywhere.

Clearfield's educational facilities also rank high. New \$100,000 High School now building; a model of efficiency and beauty.

Clearfield County and its numerous towns and neighboring communities are noted for their strong natural advantages and prosperity. Every town is a business center, not "four-corners." Most of these towns are important industrial centers, founded on rich natural advantages,—the highest grades of fire clay, plenty of coal and shale, and the very best of shipping facilities.

Clearfield and its neighbors "have the goods" and are delivering them.

WHAT OTHER CITIES ARE DOING.

Pasadena is to have a \$175,000 auditorium.

Milwaukee's police force cost the city \$676,374 last year.

Birmingham hopes to secure the proposed government armor plant.

Milwaukee is building a model Open Air School in one of the city parks.

The Milwaukee city council has voted in favor of a city-owned lighting plant.

Redlands, Cal., is the only American city boasting of a salaried flycatcher.

Portland, Ore., is raising a half million dollar fund to attract manufacturers.

Seattle derived a revenue of over \$10,000 last year from its public golf course.

Los Angeles has the largest area—337.92 square miles—of any city of the country.

New Orleans has taken the first steps toward the establishment of a zoological garden.

Klamath Falls, Ore., offers a free camp ground as an attraction for automobile tourists.

Eastport, Me., has returned to standard time, after a two weeks' trial of the "daylight-saving system."

Chicago has the highest salaried mayor in the country. He gets \$15,000 a year and serves four years.

The Mayor of Milwaukee has appointed a commission to encourage yard and house-front beautification.

Bloomington, Ill., claims to have more brick-paved streets than any other city of its size in the country.

The four largest civic organizations of Wausau, Wis., have consolidated a step in a campaign to boom the city.

Dallas high schools now offer complete courses in Spanish and Portuguese, to equip students to engage in Latin American trade.

The Dallas chamber of commerce and manufacturers' association will conduct an extensive advertising campaign this fall featuring Dallas as an educational center.

New York City has opened the first of a series of 1,000-foot piers to be constructed in the Hudson River at a cost of \$3,250,000 for the use of giant ocean steamships.

A Chicago judge has ruled that the city need not remove ashes from flat buildings containing five or more apartments, but that the removal must be made at the expense of the owners.

EDITORS TO GIVE CANDIDATES THE "O. O."

Ellensburg, July 13.—So numerous are the political offices to be filled in the state of Washington this year and so numerous are the aspirants for the honor of filling them that it has become a matter of some difficulty for even so wise and well-informed an individual as the newspaper editor to compile a mental "Who's Who" of those engaged in playing the game of politics.

But the difficult problem is to be solved through a happy scheme originating in the brain of Major H. W. Patton, of Hoquiam. Major Patton is president of the Washington State Press Association which holds its annual meeting here during the three days beginning today. The membership of the association embraces the newspaper editors of the entire state.

Major Patton thought that the association's annual meeting would afford an excellent opportunity for the editors to get acquainted with the candidates for public office. In pursuance of his plan he has invited all the candidates for state and congressional offices, without reference to parties, to attend the convention. Each candidate will be permitted to display his political wares in a brief address before the editors, while the latter will thus be given an opportunity to "size up" the aspirant for office.

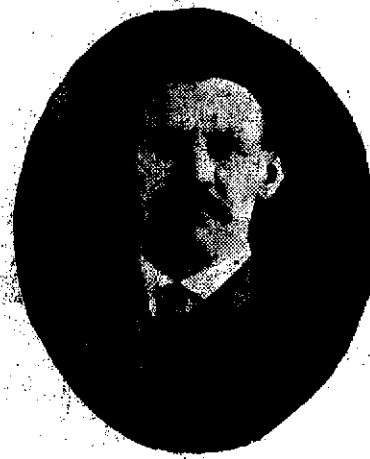

TENNIS STARS IN TOURNEY.

Utica, N. Y., July 10.—A notable array of tennis talent appeared on the courts of the Yehundasis Golf Club here today for the opening of

the annual tournament for the lawn tennis championships of New York state. Among the prominent entrants are Willis Davis, winner of the national clay court championship at Cleveland a week ago; Roland Roberts, the high school youngster who recently won the San Francisco championship, and Edwin R. McCormick and Eugene A. Warren, California's intercollegiate champions.

BOSTON FACES BEAN FAMINE.

Boston, July 13.—Boston will lose its chief means to culinary fame if the price of the many varieties of beans used in making that glorified dish, baked beans, continues to soar. An unusually short crop coupled with the demands of the Massachusetts militia and the United States regular army, which were supplied from this city, with beans to bake in the coming campaign, have taken nearly all the little kernels of delight out of Boston. Boston baked bean-less would be horrible, not to say an unthinkable, state of affairs, but it is one that is possible of realization in the near future. As it is, the price of pea beans, yellow eye, and kidney beans, the different kinds which may be used in the baking pot, is well nigh prohibitive, being close to 25c a quart.

Hammocks

Kitchen Cabinets

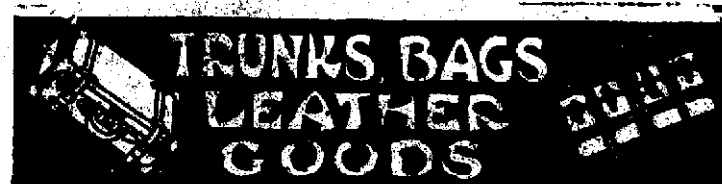

Brass Urns

Go-Carts

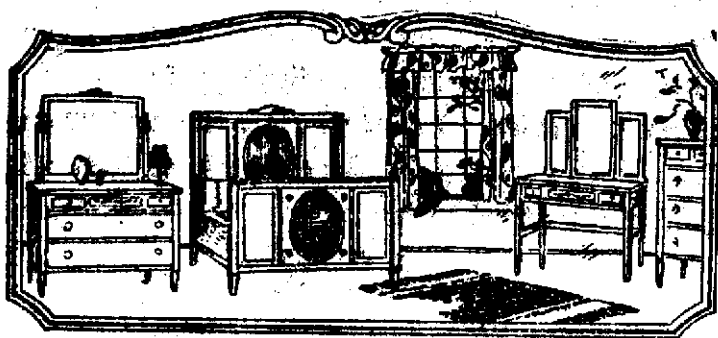

Refrigerators for the hot summer days.

We see the wireless and end our journey. Laden with purchases, we are told that we will not have to carry them, but they will be sent to us by Parcel Post, except Cousin Mary who lives in town. Her parcels will be delivered by Auto Truck.

For Your Vacation

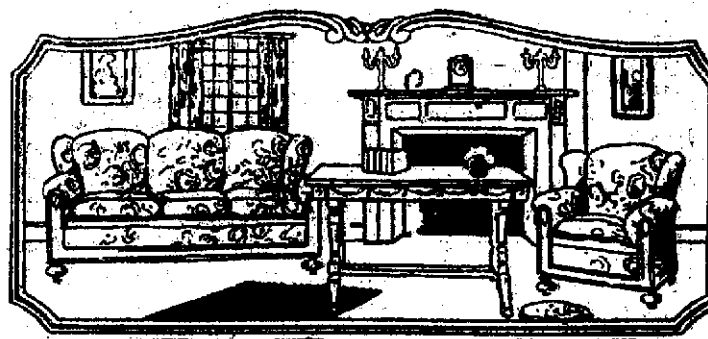

FIFTH FLOOR

Furniture of distinction and quality is the motto of the Furniture Department. Nothing but the best for the price.

Other articles found on this floor are

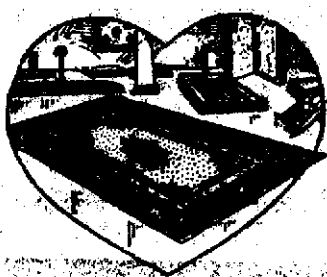

Buffets
Book Cases
Desks

The upholstered furniture of our grandfathers is coming into its own again. One can make a tasty selection here.

Pictures for the Dining Room, Den and Living Room already framed and ready to hang.

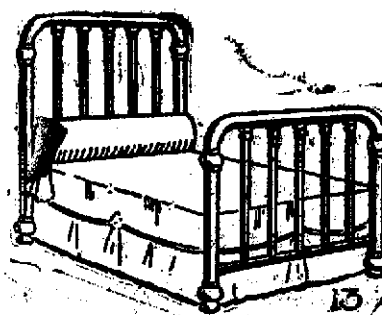

FOURTH FLOOR

The stock of Rugs, Carpets and Matting is complete, notwithstanding the inroads made on this industry by the European war.

Bedding of all kinds is a wonderful drawing card on this floor. The stock is complete and the prices right.

Here we find the New Home and New Idea Sewing Machines from \$20 to \$40. Guaranteed to be a better quality of machine than those selling for a higher price.

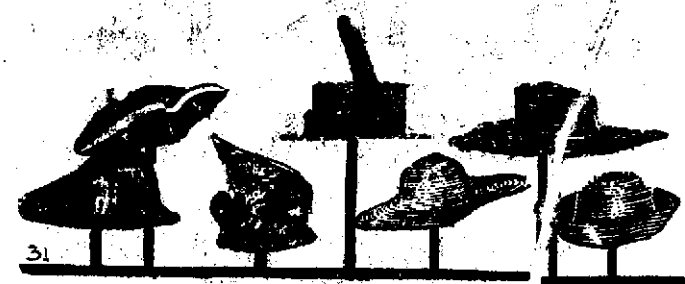

This shows the Simmons Metal Bed. It will hereafter be the regular line. Made in brass and iron. It is a new arrival.

On this floor are the Rubber Mats and Door Mats for the auto and the home.

ELEVATOR TO FOURTH FLOOR

THIRD FLOOR GOING UP

Hats of the very latest styles direct from the large millinery centers of the United States.

The Ready to Wear Dresses and Suits have met with a hearty response. Women have long known that we can fit them with ready-made garments.

Girl's and Women's Coats in most acceptable designs. A full line between season as well as at spring and fall.

Waists, Silk, Cotton and Lace. Any kind of waist you want.

ELEVATOR TO THIRD FLOOR

SECOND FLOOR GOING UP

MAIN ENTRANCE—We Enter Here and Receive the Most Courteous Attention.

We find Dry Goods in profusion in the latest patterns. The Neckwear, Gloves and little pretty things are so alluring that we start to purchase at once.

"To the Annex" a sign reads WE FOLLOW.

Returning to the main floor we notice they sell the Queen Quality for ladies and other best brands of shoes. The volume of stock leads Anne to suggest that it must be the largest in town.

Stetson Shoes for Men.

A SCREAM. Somebody spies Bargain Basement.

THE ANNEX

Here we find the large department and ladies underwear and corse.

FIRST FLOOR GOING UP

ELEVATOR TO SECOND FLOOR

ISN'T THIS GREAT. We thought we saw all the shoes in the county up on the main floor but down here we find piles and piles of odds and ends in high shoes, low shoes, children's shoes and overshoes. Just the place for one to come to fill out the family needs. The kitchenware and tinware attracted us. We never dreamed the store, as large as it is should have things like this. We couldn't name all the articles we see here. They are too numerous.

An attendant directs us to the main floor where we are told the elevator will carry us to the second floor.

We are impressed with the values of the. They are not articles bought to be placed on the counter, but rather good merchandise which shelf worn but not injured for service.

"Every day from now until Saturday, July 22nd, has been marked in red ink on my calendar at home. I am very anxious to win one of the Special Cash prizes offered in the Progress automobile contest for I feel certain that such a victory would place me in a good position for the winning of the Overland automobile, or one of the other leading prizes, at the close of the contest."

Such was the statement made to the manager of the contest on Tuesday by one of the very active workers in the big Progress campaign for the \$50.00 in cash and the \$1,400.00 in other big prizes that are offered by this paper. This timely and very sensible remark by one of the active contestants for these prizes shows the determined spirit of all of the contestants for these valuable awards and substantial honors, and it sounds some reasoning that may well be given serious thought by all candidates. This statement also reflects, in no uncertain

Clearfield Young Men's Christian Association Building

tain measure the very determined efforts that are being put into the work and the great volume of subscriptions that are now being secured by the candidates, to be voted for the cash prizes on Saturday.

It is true that the time for the vote getting in this exciting race is now very short and that each day of this time is exceedingly valuable. The votes secured in a single day or even in an hour, of properly directed effort, may mean the winning of the top prize at the end of this week as well as at the close of the contest. Each of the candidates will do well indeed to mark every one of these days, and each of them should produce an increasing number of the subscriptions and bonus ballots. The effectiveness of the individual campaigns of the various contestants are right now spelling victory or defeat for the subscription getting period of the contest is now at flood tide and every day should be a "red letter day."

July 15th and 22nd
On Saturday evening at 10 o'clock a

special accounting of the votes will be made to determine the winners of the \$25.00, \$15.00 and \$10.00 cash prizes. As clearly set forth before, these cash awards will go to the three candidates who deposit for publication the three largest numbers of votes secured during this week. Just one week from that time, or more properly speaking, at 10 o'clock p. m., on Saturday, July 22nd the official judges of the contest will go into session to make a final accounting of the votes to determine the winners of the automobile and other prizes. This act on the part of the judges, who will be named next week, will be the final act of the big race that has waxed so warm for the past six weeks. Then it will be all over—all save the great joys and substantial benefits that are to be enjoyed by the winners.

Think of the unexplainable joy that is in store for the one who is to be presented with a fine, new and fully equipped Overland touring car. Can you imagine anything more pleasing—can you picture anything that would carry anymore lasting pleasure and

joys to an ambitious individual? And then picture having a splendid \$400.00 Baumeister piano delivered to your home and placed in your parlor, without trouble or cost of any kind. Still other valuable articles of the most pleasing and desirable character are to be turned over to their winners immediately following the close of the contest. The three fine Victrolas, the two watches and the two Kodaks will all carry with them much lasting service and they will long be objects of pride and delight for the fortunate individuals that will win them. The value of these many prizes is not all, neither is everything said when their momentary value is mentioned for they will carry with them the good wishes of hundreds of friends of the contestants, and the great honor that will accompany victory in such a popular and high class enterprise.

When the Contest is Over

When the big campaign is ended and the many prizes have been turned over to the winners everyone will be glad for any part they had in helping name the winners. Every per-

son who gave a subscription to the vote credit of any of the ambitious contestants will be glad for the assistance they gave and their only regrets will be that their subscriptions were not for a longer time and their cooperation more substantial.

Each subscription to the Progress, for six months or more, handed to any of the contestants at this time or turned in direct to this office, for the vote credit of any candidate, will play a part in the naming of the winners. There is no extra charge for the voting and the votes are issued on old or renewal and arrears payments, as well as on the new subscriptions. An old one year subscription will mean 2,000 votes, a new one year subscription 3,000 votes, a two year one 6,500, a three year one 10,000, and a five year new subscription 20,000 votes. The opportunity to cast your votes for the candidate of your choice is yours, the time is ripe, and your candidate will appreciate your courtesy. Do not neglect this matter now but vote today.

OUR DAILY BIRTHDAY PARTY

Rt. Hon. Walter Hume Long, the British cabinet member who is given chief credit for getting the conscription bill through parliament, born at Bath, 62 years ago today.

Mary E. Wooley, president of Mt. Holyoke College, born at South Norwalk, Conn., 55 years ago today.

Dr. William J. Tucker, president emeritus of Dartmouth College, born at Griswold, Conn., 77 years ago today.

Rear Admiral Samuel P. Conly, U. S. N., retired, born at Woodbury, N. J., 67 years ago today.

Dr. George Leslie Omake, president of Ursinus College, born at Greencastle, Pa., 45 years ago today.

ACCUSED OF TAKING CITY FUNDS.

Tampa, Fla., July 13.—The case of J. L. Hollingsworth, the former city tax collector, who was indicted some time ago on a charge of embezzling some \$29,000 of the city's license tax money, came up for trial today in the criminal court. The trial promises to be one of unusual interest. Hollingsworth's defalcation are said to have extended over a period of several years. He was in the eighth year of continuous service and had been nominated in the city primary for another term when the alleged discovery was made that he was short in his accounts.

DAILY LESSON IN HISTORY

One Hundred Years Ago Today
1816 — Hiram Todd, who established the first grape-growing belt along the southern shore of Lake Erie, born at Poultney, Vt.

Seventy-Five Years Ago Today
1841—A treaty for the settlement of the Eastern question involving the differences between the Sultan of Turkey and the Pacha of Egypt, was signed in London by the representatives of the European powers.

COMMISSION TO STUDY MEXICAN PROBLEMS SOON

And American Government Will Appoint The Members on Commission

AGREEMENT IS DISCUSSED

Washington, July 13.—(By United Press)—A Mexican-American commission will be appointed by the respective governments to study the Mexican problems, it was learned today from authority of one who is in touch with the Carranza government. The commission plans have not been completed, but will be finally decided in a few days. It is however present upmost in the minds of those who are negotiating for settlement.

The meeting of the commission will probably be held at some northern resort. The Mexican Ambassador Arredondo has been in conference with Secretary Polk today. The American Ambassador to Mexico has acted as interpreter.

It was learned after the conference announcement that it was concerning the details of a proposed agreement between the two governments, and that it may be expected in a few days.

WAITING FOR LUNAR ECLIPSE.

Washington, July 13.—Astronomers at the United States Naval Observatory here, like their fellow-scientists at other parts of the country, are turning their instruments for observation during the almost total eclipse of the moon, which is to take place tomorrow night. The eclipse will be visible in all parts of the United States, wherever the weather conditions are favorable.

The moon will enter the shadow of the earth at 9:18 P. M., Eastern standard time, and the beginning of the eclipse. No annular eclipse will be noted at this time, except that it will gradually lose part of its brightness, while retaining its circular shape. The earth's shadow, however, will gradually encroach on the bright disk until at about nearly 80 per cent. of the surface will be covered. The shadow will then begin to pass off, the eclipse ending at 1:12 A. M.

The average distance of the moon from the earth is about 239,000 miles, and the width of the shadow of the earth through which the moon passes at the time of an eclipse is a little more than 5,700 miles, or about two and two-thirds times the diameter of the moon. The average length of the earth's shadow is 857,000 miles, so that if interplanetary space were dusty we should see a long shadow tapering off from the earth to a point some 857,000 miles away. But as interplanetary space is dusty, we can only infer the existence of the earth's shadow from the light on the moon at the time of eclipse.

NEW TREASURER OF G. O. P. NATIONAL COMMITTEE NAMED

New York, July 13.—(By United Press)—Cornelius N. Bloss, son of the treasurer of the Republican National committee was today named to take the place formerly occupied by his father, and to take charge of the coming campaign of Charles E. Hughes. Frederick W. Uphan of Chicago has been named as assistant treasurer. Senator Penrose was a caller on Mr. Hughes today.

After a conference with Hughes and Chairman Wilcox, it was reported today that it is very likely that July 31st will be the date agreed upon for the formal nomination of Hughes. The nominee is expected to depart for his transcontinental trip soon after, but the date is not yet set. It is understood that the candidate will return in time to make a speech in Maine before the election there September 2nd. The trip is not planned as an election tour.

GIVES RULES FOR TEACHERS

Squared Shoulders Drive Home My plans Study, a Philadelphia Doctor Says.

Pertinent instructions to public school teachers as to the manner in which they shall conduct themselves about the schoolroom so that they may be an example to their pupils were given by Dr. Edward Martin, member of the Philadelphia board of education, who presided at a health conference of principals of the public schools.

"Brace up, have a correct carriage and be able to look others in the face," Doctor Martin said to the several hundred teachers who attended the conference. He commented on the excellent carriage of the West Point cadets, and told the instructors that they should go with squared shoulders before their pupils.

During the Spanish-American war, while he was on inspection duty in the South, Doctor Martin said the standing of a regiment always could be predicted by looking at the officers who commanded it. If the officers walked erect and with vigor, the troops usually were like them.

Want Beardless Soldiers.

Domestic crises confront attested married men with beards. Before they present themselves to the British army, they will be required to remove that long cherished possession. "No beards" is the rule in the army, section 12 of the King's Regulations providing that the chin and underlip will be shaved, but not the upperlip. Whiskers, if worn, will be of moderate length. The result, according to a London paper is that attested married men with beards are faced with a grave domestic crisis. "My wife," said one bearded armistee, "has never seen me without a beard. I was bearded when we first met. How do I know what she will think of me when she sees my chin?" Another bearded late group man intends to join in his beard and let the army authorities do the execution he has not the heart to wreak himself. He has a notably large and flowing beard. A military authority was firm on the point. "Men who join their groups would be well advised to leave their beards at home," he stated.

Subscribe for The Progress.

REINFORCEMENTS FAR TO CHECK ALLES ADVANCE

The Fighting on Somme River Enters Third Phase When Germans Strengthen Lines

Armies Locked in Hand-to-Hand Fighting in Many Sections on a Wide Front—Bloody Struggles Reported.

London, July 13.—(By United Press)—The fighting along the Somme region entered into its third phase late this afternoon, following the arrival of strong bodies of German reinforcements. Activity was renewed along the greater part of the British line today and points on the French line both north and south of the Somme.

The latest advice from British headquarters, authorized by General Haig, reported that strong German forces have begun a series of severe counter-attacks against the British lines and that the British have been forced backward slightly at several points. The Germans regained some lost ground in the Mametz and Tronez woods, but elsewhere their counter-attacks were repulsed.

The German war offices stated this afternoon that there has been practically no interruption in the fighting since Monday. The two armies are locked in a hand-to-hand struggle in many sectors of the wide front reaching the Bataune-Albert road.

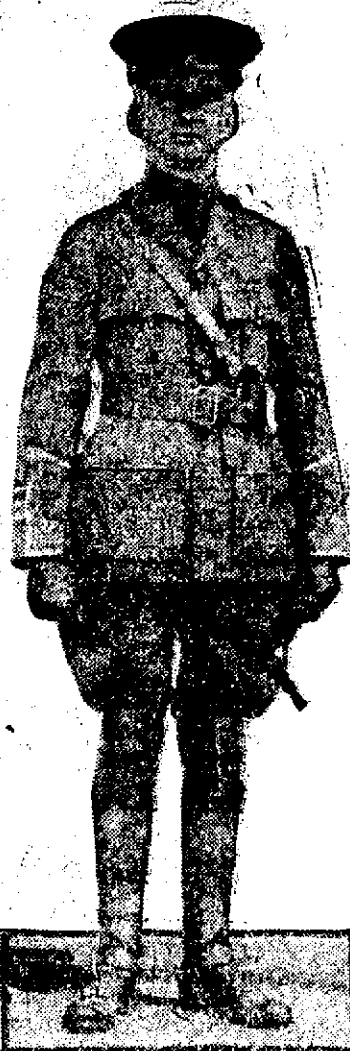

Near Contalmaison the fighting is particularly violent. Sanguinary actions are occurring in Mametz and Tronez woods. General Froh's army battling to reach Peronne, and the German forces defending that town continue their bitter struggle south of the Somme.

There has been no important change during the last 24 hours, according to advice late yesterday afternoon. The French recaptured several positions in last night's and yesterday's fighting.

Mametz Wood, north of the Somme was entirely in the hands of General Haig's forces tonight. The British troops carried it in a series of bloody infantry attacks followed by heavy artillery preparation, according to announcement received here. Two strong German counter attacks are repulsed at Contalmaison. Sweeping successes for the Russians at Causaux front, and for the Italians on the Treviso were reported in Petrograd and Rome bulletins. The Italians are believed to have carried Tolmino.

"Daylight-Saving" Popular. The hands on all clocks on British railroads, post offices, newspaper offices, police stations and other places where business is conducted throughout the night were pushed forward at two o'clock one morning recently to three o'clock, in accordance with the daylight saving act. The new schedule will run until September 20, when clocks will be stopped for an hour. Factories, banks, stores, trains, theaters and restaurants will all conform to the new time schedule. The Scandinavian countries, France and Holland also have adopted the scheme of daylight-saving initiated by Germany, and several Canadian cities, including Halifax, have fallen into line.

AMERICAN FOR CANADA

LIEUT. COL. R. J. BATES

Lieutenant-Colonel R. J. Bates is commanding officer of the new 213th Battalion, American Legion, now being recruited in Toronto. Lieutenant Colonel Bates was formerly commanding general of the Michigan National guard, holding the rank of brigadier general. He commanded a battalion throughout the Spanish-American war.

JUNIOR NAVAL CAMP.

New London, Conn., July 13.—Everything is in readiness for the opening tomorrow of Camp Dewey, the training station of the United States Junior Naval Reserve. The camp is on the Thames River, near this city, and has accommodations for 300 boys. The boys will be taught the elements of nautical science under the direction of naval officers.

Subscribe for the Progress.

U. S. EXPORTS FOR 1916. LARGEST IN NATION'S HISTORY

Washington, July 13.—(By United Press)—The foreign trade of the United States for the fiscal year just closed exceeded \$6,500,000,000, according to official estimation of the United States bureau of foreign and domestic commerce. This amount is more than \$1,500,000,000 over the previous fiscal year, and is the largest total in the history of American commerce. The imports for the 1915 fiscal year were \$2,180,000,000 more than for 1916 fiscal year.

Seven articles compose one-half of the entire amount; they are sugar, \$260,000,000; rubber, \$159,000,000; hides, \$157,000,000; raw wool \$146,000,000 raw silk, \$122,000,000; coffee, \$117,000,000; drugs, \$180,000,000. All these amounts are big increases over 1915. Automobile exports were over \$123,000,000, against \$68,000,000 last year. Oats and corn showed big increases.

Big Business Recognizes Publicity.

By BREEN.

In latter years the biggest enterprises in this country have recognized the value of advertising. The men in charge of their advertising campaigns are paid splendid salaries. In fact, no branch of the business receives more attention. Publicity and advertising form the keynote of success.

If big business needs advertising doesn't small business need it?

Every man in business needs advertising. If his business is a success he needs advertising to keep it so. If his business is struggling liberal advertising will build it up.

Why

so many Repair Bills

If there's one thing more than another that sours a man against motoring and makes him wish he'd stuck to the horse-and-buggy, it's having to dig down every week or so to pay for some darned thing that has gotten out o' kelter. Correct lubrication will help to keep your car out of the repair shop and your hand out of your purse.

Atlantic Polarine is "correct lubrication" for eight out of ten cars. Under certain conditions, one of the other three principal motor oils—Atlantic "Light," Atlantic "Medium" or Atlantic "Heavy"—may give better results.

But, in all events, at least one of those four oils is the one best suited to your particular needs. Ask your garageman which.

Atlantic Motor Oils are to correct lubrication what Atlantic Gasoline, the accepted standard, is to correct fuel. In either gas or oil, you can't go wrong on "Atlantic."

Drain your crank-case, wash it out with a little Rayolight Oil, put in a fresh supply of pure, honey-clear Atlantic Motor Oil. You'll have fewer bills for repairs and be glad you took the advice of oil experts.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garageman for it. If they cannot supply you drop us a postal and the book will be sent you without charge.

LABOR FINDS READY MARKET IN ALL LINES

Building Operations Numerous
In Every Part of Town
At The Present

CONTRACTORS ARE RUSHED

At no time in the history of Clearfield has there been so many laborers and skilled men in demand as there are at present. Everything is on the move on outside work since the wet weather period of a few weeks ago is past. It is not a big boom that has fastened its clutches on Clearfield but rather a steady growth of business in every line that demands more elbow room in the way of homes, business houses and substantial public improvements.

One hundred and eighty thousand dollars is now being spent by the city governments of Clearfield in public conveniences. The new High school building is being rushed to completion with a regular army of skilled laborers in brick, in steel and in the different trades and arts. The building when completed will be looked to with pride and will result in a renewed interest in educational work in the community. About \$80,000 will be spent in the near future in making the public highways of Clearfield the envy of outlying towns. About fifty men are now engaged in this work and the number will be increased until probably hundreds will be at work.

Labor is very much in demand and there is a chance here for the high school and college student to earn good money during their vacation at healthful and instructive work. The laying out, grading and cost calculation of a street is a mere knowledge of mathematics but the executive or superintendent over the work must be practical, hence the student can get practical work here that will dole tail with the theory he gets at college.

The public service company operating here is advertising for laborers on its gas mains and other enterprises. In fact one can hardly go out on the street without finding someone looking for workers, not alone at ordinary labor but in the arts and sciences.

The silk mill has begun the construction of four large double houses for renting to their employees. These houses are of good construction and are a credit to the company building them. This company has made a wonderful record since locating at Clearfield. It gives employment to a very large number of people and is very careful to throw the proper environment around its employees. Any one not having the best of references need not apply to them for employment.

A very large number of bricklayers, carpenters and laborers are being employed in the East End on homes. E. R. Williams is building a cottage on the corner of Dorey and Sixth streets. George Raymond is building a home on Dorey and Ninth street. Steve Capelle is erecting a brick house on the corner of Daisy and Thirteenth streets. William Porter is building two houses on Daisy street between Fifth and Sixth streets and another large house is being erected on the left hand side of Daisy street beyond Thirteenth street.

In other parts of town building operations are being carried forward with a rush and as fast as material and labor can be had. Valentine Stuby is making extensive alterations to his home on Weaver street. Frank Gilliland, the grocer, will soon start the erection of two houses on Fifth street near Locust.

Summing up the general labor situation in Clearfield it can truly be said that there is every chance in the world for laboring men here. Prosperity is evident everywhere and everybody is confident that there is good times ahead. The Chamber of Commerce is still busy on industrial propositions and is making good headway towards landing them.

GLEN RICHEY

Don Gingery of Clearfield, was a visitor in town yesterday.

V. K. Rowland of Westover, spent the day visiting the mines near Glen Richey.

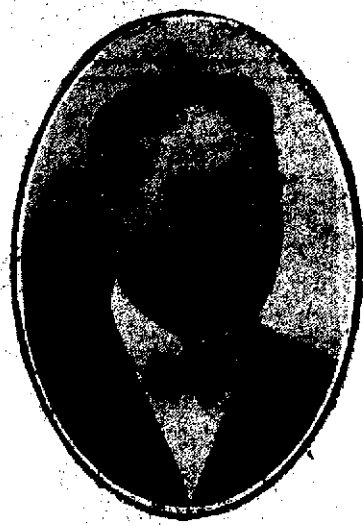

E. F. Harvey of St. Benedict, spent yesterday in town.

Andrew Lind, of O'Shanter has gone to Clearfield to see his son, Robert, who is a patient in the hospital.

The Ladies Aid Society of the Presbyterian church had a little picnic in the grove yesterday.

Mrs. Frank and Mrs. John Shaffer, of Bloomington, were in town yesterday.

Miss Constance Fisher spent the day in Clearfield.

THE LATE OSCAR MITCHELL

CLEARFIELD AN IDEAL SHOPPING CENTER OF CO.

Many Up-To-The-Minute Stores
Offer The Choice
of Everything

COMFORTS FOR SHOPPERS

Clearfield, the careful county seat of Clearfield county has always been noted for its splendid shopping facilities.

It is customary for the people of the villages and small towns to go to the nearest large town to do their shopping for the merchants of the villages cannot supply their customers with all the variety of articles which are needed. So when Clearfield started to grow the storekeepers deemed it wise since Clearfield was the county seat and also had many hamlets surrounding it to stock their places of business with a large quantity and good variety of merchandise and materials so as to make them attractive to the residents and out of town visitors.

It was soon found out that we were to be a center for shoppers and also for marketing as the farmers would bring the best of their products to our markets, then the merchants saw that they would have to enlarge their store buildings as well as their stock of goods.

The fame of the wonderful advantages and offers of our merchandise, clothing, shoes, hardware and grocery stores spread so quickly that now daily we have shoppers from Philadelphia, Osceola, Houtzdale, Kutztown, Snice Show, Irvona, Coalport, DuBois, Mahaffey, Curwensville and all the villages far and near.

The merchants are to be congratulated on the large part they have done in putting Clearfield on the map and making it what it is. The stores are not wholly retail but wholesale as well. They are very accommodating, for if anyone inquires for something they do not carry, they very kindly offer to find out about it and send for it. They offer you the best of everything and at the best prices possible.

After the shoppers have finished their shopping the Woman's club, Leitzinger Bros. and Shapiro's stores have furnished delightful rest rooms both accommodating and convenient which are a lure to out of town guests. Then at any time during the day tasteful, well cooked and homelike meals and lunches can be had at Ralph Jordan's restaurant and cafe. Those detained over night can find splendid and suitable accommodations at the best hotels in Central Pennsylvania.

Thus with all these opportunities Clearfield can well be called the ideal center for shoppers both at home and abroad.

BIG RALLY OF ENDEAVORERS AT ATLANTA.

Atlanta, July 13.—Full of enthusiasm for a successful meeting, thousands of members of the Society of Christian Endeavor trooped into Atlanta today for the first big All-South convention of the organization. Hundreds of delegates and visitors are here from Texas and Arkansas, from Tennessee and Kentucky, from Florida and Virginia and from all the interesting intervening commonwealths.

The convention program covers four days and provides for daily public meetings and numerous department conferences. Among the prominent speakers to be heard at the public sessions will be Secretary of War Newton D. Baker, Daniel Poling, noted temperance orator and possible candidate of the Prohibition party for president this year, and the Rev. Dr. Francis E. Clark, the founder of the United Society of Christian Endeavor.

PARK BONDS BEING SOLD AT FAST RATE

Committee Determined to "Put
Deal Across" With Help
Of Business Men

NEW SUBSCRIPTION RECEIVED

The list of subscribers for first mortgage bonds on the Clearfield Driving park is still growing, reports showing that two hundred dollars more has been signed for and that many of those who have already subscribed are willing to raise their amount considerably. It is estimated that over eight thousand has already been promised but only \$5,700 signed for.

It is the desire of those back of the movement to have as many people as possible in this proposition as it is one which will be of great benefit to the town and they do not wish only a few of the men to put up all the money needed to "put the deal across."

The success of this movement is of more importance than most of the people of Clearfield can realize. This town has for many years been in need of a recreation place and an amusement park and this is the one opportunity to get these. The Driving park is the only suitable location for places of this sort and to miss this good chance to bring a much needed park here, would be the greatest mistake made in years.

The park will not be used only as a recreation park and amusement park but also as a fair grounds which will bring much money into Clearfield each year and which will act as a stimulus to the farmers to raise better crops, better stocks and better fruit. The result of all these will be in bringing much more money into the county by increased exports. It will help every business in the county and also the working people by bringing about better produce at as low if not lower prices.

Everyone connected with the proposition is very optimistic at the outlook. They have determined to raise the needed money and buy the park and also put the necessary improvements on it. Many more business men have expressed their willingness to help in the proposition and it is now a matter of only a few days before the park will exchange hands. The committees are hard at work and expect to have enough money raised by the end of the week.

FIRST WARSHIP BUILT HERE FOR SPAIN.

Boston, July 13.—The first warship ever built in the United States for Spain—a 196-foot submarine capable of cruising nearly 500 miles without renewal of her fuel supply—is to be launched at the Fore River shipyards at Quincy. After receiving her finishing touches she will be tried out in Massachusetts Bay and will then be ready to go into commission. Whether she will be taken direct to Spain under her own power is not known here but it is believed that she will not, especially in view of the possible danger that she might be mistaken for a craft belonging to one of the warring powers.

Snap Shot of Two Clearfield Boys On Way To Border

WILLIAM YOUNG, 18TH REGIMENT, N. G. P.

This photograph of William Young and his mother, Mrs. Philip Young, of Locust street, was taken in the N. Y. C. Yards on July fifth, during the stop of the Eighteenth Regiment here while on its way to the Mexican border. William joined the regiment last summer in Pittsburgh.

FRANK SCOG, 18TH REGIMENT N. G. P.

This photograph of Frank Scog and his mother and two small children was taken during the lay over of his regiment here on July fifth. picture shows him on the platform of the car which will carry him to the Mexican border.

NATIONAL EMPLOYMENT BUREAU FOR WOMEN READY

Washington, July 13.—(By United Press)—Uncle Sam's all ready to help his women and girls get jobs.

Organization of the recently created Women's & Girl's division of the United States employment service of the bureau of immigration now is on a working basis, Commissioner General of Immigration Caminetti announced here today.

Branches of this bureau have been established in all the leading cities of the country. They are in charge of women. Uncle Sam's investigation disclosed that women and girls don't like to deal with men when they go to

an employment bureau, that's why.

The service stations will give special attention to the requests of women wage earners for work and to meeting the demand for female help in rural as well as urban communities.

If a woman in Des Moines wants a job in Kansas City but doesn't know much about conditions down there, she will be told by the bureau. Detailed information about pay, hours and general conditions will be placed at her disposal by the bureau.

If the woman wants to get into a certain kind of work but doesn't know enough about it to be efficient the bureau nearest her home will provide her a vocational training course along

that line and be hunting a job for her meantime.

Each bureau is responsible to the government for the sort of places it sends the women who ask for jobs. The women in charge of the bureaus must "protect the women and girls from exploitation and misdirection, and no woman or girl shall be directed to an opportunity unless the character of the place and the employer has been established to the satisfaction of the officer in charge."

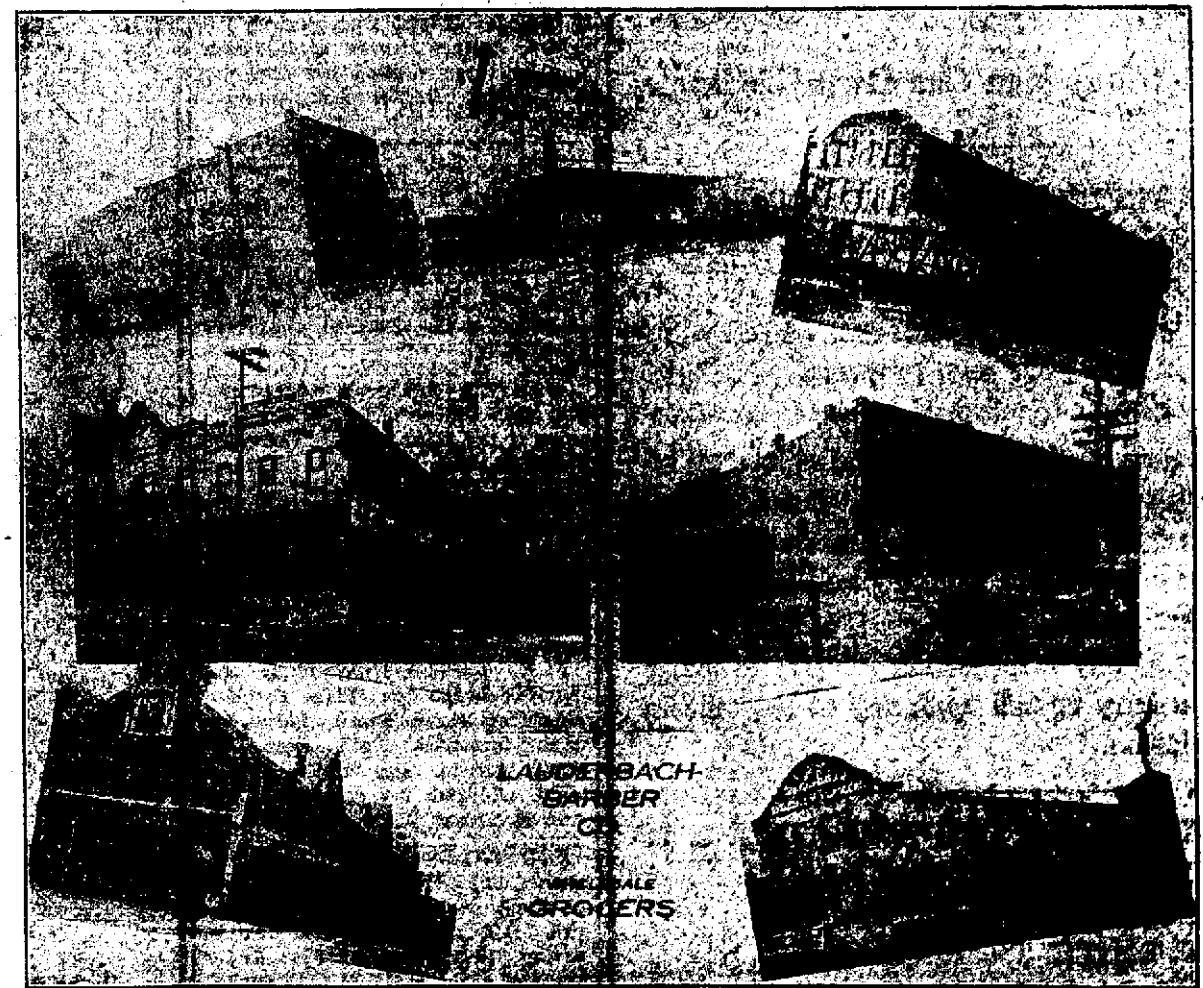

The factory owners and business men of the United States are urged to cooperate with Uncle Sam's women agents in getting efficient female help placed in the right jobs.

Send Drinkers to Front
On account of a diminished output of munitions, due to drinking, the French minister of munitions has issued instructions that any munition workers found under the influence of alcohol shall be immediately sent to the fighting line.

The explanation is given that the penalty is not in the nature of punishment, but because the man in question is unlikely to experience the temptations at the front.

Power Lifeboats
Several of the larger power lifeboats which are used either to search for or tow coaled boats at sea.

WHOLESALE GROCERS

DELIGHTED! GLAD TO KNOW YOU GET ACQUAINTED

Clearfield wants to get better acquainted with her neighbors. Friend-making is the principal object of this publication. We want to know you better and work with you for the up-building of the business interests of Central Pennsylvania.

As a message to leave with you, we suggest that you adopt our motto: "Trade at Home." Buy at home. Patronize your local dealer.

Every dollar expended or invested in this part of Pennsylvania is certain to build up and enrich the home town. It will help pay taxes, construct and maintain good roads, build and maintain schools, churches, libraries, manufacturing plants, and do scores of other things that need to be done at home and to which your home town is entitled. Buying at home is a sign of sound business judgment on the part of the people.

If your local dealer can not supply some of the things you require, try Clearfield, where we are confident the most discriminating will find the articles desired.

Trade in our home trading zone. Money sent a hundred miles or more from home seldom finds its way back. Keep as much of the money here as possible and invest it here whenever feasible. Very few of the many large fortunes made from Clearfield's vast timber tracks (now gone forever) were made by men residing here. Only a small portion of the money was reinvested in the Clearfield district. We should try to so shape the future development of our natural resources, now largely mineral, that the maximum amount of dollars possible remain within our own territory.

One hundred thousand people, the population of Clearfield County, trading at home, means plenty of business for all.

There are large manufacturing possibilities in Central Pennsylvania, due to central location, rich coal and fire clay veins, splendid railroad facilities, unsurpassed water supply, cheap fuel and power, and local conditions that are favorable to producing and marketing goods at a profit. These advantages are being used by a large and increasing number of manufacturers. A still larger number of factories may be encouraged to locate in this section if all of the towns continue to push their splendid advantages to the front. A dozen or more live towns constantly advertising their advantages would be certain to produce good results.

Clearfield now manufactures the following products: fire brick, paving block, building brick, sewer pipe and drain tile, refrigerators, sole leather, cut glass, silk velvet, brick and grinding machinery, complete installations for fire brick plants, wet and dry pans and pan emptiers for the clay working trade, general machinery, hand knitting machines, commercial stationery and school supplies, brooms, building materials, cement blocks, glass sand, confectionery, ice cream, pasteurized milk, and soft drinks.

Clearfield has a number of other plants of an industrial nature, including marble and granite works, large and up-to-date steam laundry, railroad yards and car repair shops.

Clearfield jobbers sell at wholesale—groceries, provisions, flour and feed, fruits, ice cream, hardware, mine and mill supplies, builders' supplies, electric supplies and equipment, commercial stationery and school supplies.

Clearfield's retail stores are unsurpassed in towns of its class for extent and variety of stock. If your wants can not be fully supplied at home, they can undoubtedly be met in Clearfield.

Clearfield's splendid hotel accommodations are known far and wide. Tourists find it an unusually attractive stopping-over place. Excellent roads throughout the district.

Clearfield's shipping facilities and financial institutions are of the very best. None better anywhere.

Clearfield's educational facilities also rank high. New \$100,000 High School now building; a model of efficiency and beauty.

Clearfield County and its numerous towns and neighboring communities are noted for their strong natural advantages and prosperity. Every town is a business center, not "four-corners." Most of these towns are important industrial centers, founded on rich natural advantages,—the highest grades of fire clay, plenty of coal and shale, and the very best of shipping facilities.

Clearfield and its neighbors "have the goods" and are delivering them.

WHAT OTHER CITIES ARE DOING.

Pasadena is to have a \$175,000 auditorium.

Milwaukee's police force cost the city \$676,374 last year.

Birmingham hopes to secure the proposed government armor plant.

Milwaukee is building a model Open Air School in one of the city parks.

The Milwaukee city council has voted in favor of a city-owned lighting plant.

Redlands, Cal., is the only American city boasting of a salaried flycatcher.

Portland, Ore., is raising a half million dollar fund to attract manufacturers.

Seattle derived a revenue of over \$10,000 last year from its public golf course.

Los Angeles has the largest area—337.92 square miles—of any city of the country.

New Orleans has taken the first steps toward the establishment of a zoological garden.

Klamath Falls, Ore., offers a free camp ground as an attraction for automobile tourists.

Eastport, Me., has returned to standard time, after a two weeks' trial of the "daylight-saving system."

Chicago has the highest salaried mayor in the country. He gets \$15,000 a year and serves four years.

The Mayor of Milwaukee has appointed a commission to encourage yard and house-front beautification.

Bloomington, Ill., claims to have more brick-paved streets than any other city of its size in the country.

The four largest civic organizations of Wausau, Wis., have consolidated a step in a campaign to boom the city.

Dallas high schools now offer complete courses in Spanish and Portuguese, to equip students to engage in Latin American trade.

The Dallas chamber of commerce and manufacturers' association will conduct an extensive advertising campaign this fall featuring Dallas as an educational center.

New York City has opened the first of a series of 1,000-foot piers to be constructed in the Hudson River at a cost of \$3,250,000 for the use of giant ocean steamships.

A Chicago judge has ruled that the city need not remove ashes from flat buildings containing five or more apartments, but that the removal must be made at the expense of the owners.

EDITORS TO GIVE CANDIDATES THE "O. O."

Ellensburg, July 13.—So numerous are the political offices to be filled in the state of Washington this year and so numerous are the aspirants for the honor of filling them that it has become a matter of some difficulty for even so wise and well-informed an individual as the newspaper editor to compile a mental "Who's Who" of those engaged in playing the game of politics.

But the difficult problem is to be solved through a happy scheme originating in the brain of Major H. W. Patton, of Hoquiam. Major Patton is president of the Washington State Press Association which holds its annual meeting here during the three days beginning today. The membership of the association embraces the newspaper editors of the entire state.

Major Patton thought that the association's annual meeting would afford an excellent opportunity for the editors to get acquainted with the candidates for public office. In pursuance of his plan he has invited all the candidates for state and congressional offices, without reference to parties, to attend the convention. Each candidate will be permitted to display his political wares in a brief address before the editors, while the latter will thus be given an opportunity to "size up" the aspirant for office.

TENNIS STARS IN TOURNEY.

Utica, N. Y., July 10.—A notable array of tennis talent appeared on the courts of the Yehundasis Golf Club here today for the opening of

the annual tournament for the lawn tennis championships of New York state. Among the prominent entrants are Willis Davis, winner of the national clay court championship at Cleveland a week ago; Roland Roberts, the high school youngster who recently won the San Francisco championship, and Edwin R. McCormick and Eugene A. Warren, California's intercollegiate champions.

BOSTON FACES BEAN FAMINE.

Boston, July 13.—Boston will lose its chief means to culinary fame if the price of the many varieties of beans used in making that glorified dish, baked beans, continues to soar. An unusually short crop coupled with the demands of the Massachusetts militia and the United States regular army, which were supplied from this city, with beans to bake in the coming campaign, have taken nearly all the little kernels of delight out of Boston. Boston baked bean-less would be horrible, not to say an unthinkable, state of affairs, but it is one that is possible of realization in the near future. As it is, the price of pea beans, yellow eye, and kidney beans, the different kinds which may be used in the baking pot, is well nigh prohibitive, being close to 25c a quart.

Kitchen Cabinets

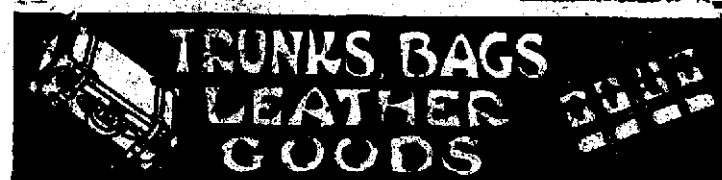

Brass Urns

Go-Carts

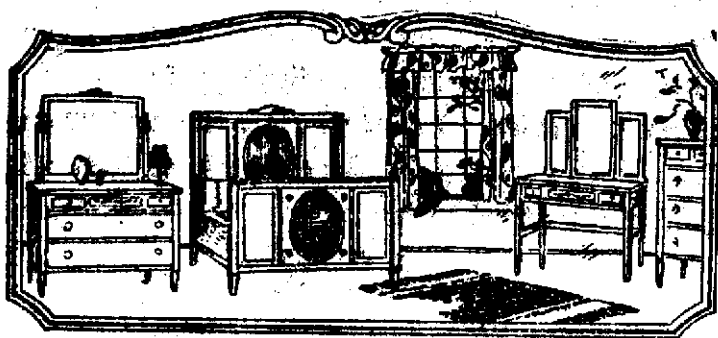

Refrigerators for the hot summer days.

We see the wireless and end our journey. Laden with purchases, we are told that we will not have to carry them, but they will be sent to us by Parcel Post, except Cousin Mary who lives in town. Her parcels will be delivered by Auto Truck.

For Your Vacation

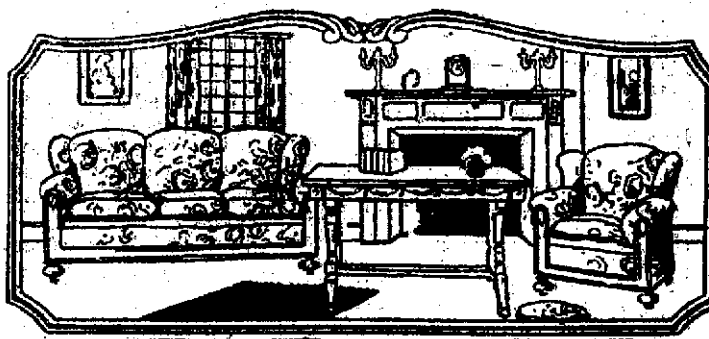

FIFTH FLOOR

Furniture of distinction and quality is the motto of the Furniture Department. Nothing but the best for the price.

Other articles found on this floor are

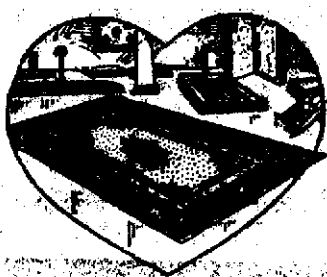

Buffets
Book Cases
Desks

The upholstered furniture of our grandfathers is coming into its own again. One can make a tasty selection here.

Pictures for the Dining Room, Den and Living Room already framed and ready to hang.

FOURTH FLOOR

The stock of Rugs, Carpets and Matting is complete, notwithstanding the inroads made on this industry by the European war.

Bedding of all kinds is a wonderful drawing card on this floor. The stock is complete and the prices right.

Here we find the New Home and New Idea Sewing Machines from \$20 to \$40. Guaranteed to be a better quality of machine than those selling for a higher price.

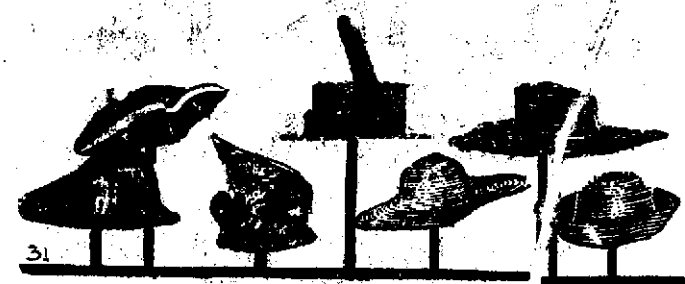

This shows the Simmons Metal Bed. It will hereafter be the regular line. Made in brass and iron. It is a new arrival.

On this floor are the Rubber Mats and Door Mats for the auto and the home.

ELEVATOR TO FOURTH FLOOR

THIRD FLOOR GOING UP

Hats of the very latest styles direct from the large millinery centers of the United States.

The Ready to Wear Dresses and Suits have met with a hearty response. Women have long known that we can fit them with ready-made garments.

Girl's and Women's Coats in most acceptable designs. A full line between season as well as at spring and fall.

Waists, Silk, Cotton and Lace. Any kind of waist you want.

ELEVATOR TO THIRD FLOOR

SECOND FLOOR GOING UP

MAIN ENTRANCE—We Enter Here and Receive the Most Courteous Attention.

We find Dry Goods in profusion in the latest patterns. The Neckwear, Gloves and little pretty things are so alluring that we start to purchase at once.

"To the Annex" a sign reads
WE FOLLOW.

Returning to the main floor we notice they sell the Queen Quality for ladies and other best brands of shoes. The volume of stock leads Anne to suggest that it must be the largest in town.

Stetson Shoes for Men.

A SCREAM. Somebody spies Bargain Basement.

THE ANNEX

Here we find the large department and ladies underwear and corse.

FIRST FLOOR GOING UP

ELEVATOR TO SECOND FLOOR

ISN'T THIS GREAT. We thought we saw all the shoes in the county up on the main floor but down here we find piles and piles of odds and ends in high shoes, low shoes, children's shoes and overshoes. Just the place for one to come to fill out the family needs. The kitchenware and tinware attracted us. We never dreamed the store, as large as it is should have things like this. We couldn't name all the articles we see here. They are too numerous.

An attendant directs us to the main floor where we are told the elevator will carry us to the second floor.

We are impressed with the values of the. They are not articles bought to be placed on the counter, but rather good merchandise which shelf worn but not injured for service.

"Every day from now until Saturday, July 22nd, has been marked in red ink on my calendar at home. I am very anxious to win one of the Special Cash prizes offered in the Progress automobile contest for I feel certain that such a victory would place me in a good position for the winning of the Overland automobile, or one of the other leading prizes, at the close of the contest."

Such was the statement made to the manager of the contest on Tuesday by one of the very active workers in the big Progress campaign for the \$50.00 in cash and the \$1,400.00 in other big prizes that are offered by this paper. This timely and very sensible remark by one of the active contestants for these prizes shows the determined spirit of all of the contestants for these valuable awards and substantial honors, and it sounds some reasoning that may well be given serious thought by all candidates. This statement also reflects, in no uncertain manner, the very determined efforts that are being put into the work and the great volume of subscriptions that are now being secured by the candidates, to be voted for the cash prizes on Saturday.

It is true that the time for the vote getting in this exciting race is now very short and that each day of this time is exceedingly valuable. The votes secured in a single day or even in an hour, of properly directed effort, may mean the winning of the top prize at the end of this week as well as at the close of the contest. Each of the candidates will do well indeed to mark every one of these days, and each of them should produce an increasing number of the subscriptions and bonus ballots. The effectiveness of the individual campaigns of the various contestants are right now spelling victory or defeat for the subscription getting period of the contest, is now at flood tide and every day should be a "red letter day."

July 15th and 22nd
On Saturday evening at 10 o'clock

Clearfield Young Men's Christian Association Building

tain measure the very determined efforts that are being put into the work and the great volume of subscriptions that are now being secured by the candidates, to be voted for the cash prizes on Saturday.

It is true that the time for the vote getting in this exciting race is now very short and that each day of this time is exceedingly valuable. The votes secured in a single day or even in an hour, of properly directed effort, may mean the winning of the top prize at the end of this week as well as at the close of the contest. Each of the candidates will do well indeed to mark every one of these days, and each of them should produce an increasing number of the subscriptions and bonus ballots. The effectiveness of the individual campaigns of the various contestants are right now spelling victory or defeat for the subscription getting period of the contest, is now at flood tide and every day should be a "red letter day."

July 15th and 22nd
On Saturday evening at 10 o'clock

special accounting of the votes will be made to determine the winners of the \$25.00, \$15.00 and \$10.00 cash prizes. As clearly set forth before, these cash awards will go to the three candidates who deposit for publication the three largest numbers of votes secured during this week. Just one week from that time, or more properly speaking, at 10 o'clock p. m., on Saturday, July 22nd the official judges of the contest will go into session to make a final accounting of the votes to determine the winners of the automobile and other prizes. This act on the part of the judges, who will be named next week, will be the final act of the big race that has waxed so warm for the past six weeks. Then it will be all over—all save the great joys and substantial benefits that are to be enjoyed by the winners.

Think of the unexplainable joy that is in store for the one who is to be presented with a fine, new and fully equipped Overland touring car. Can you imagine anything more pleasing—can you picture anything that would carry anymore lasting pleasure and

joys to an ambitious individual? And then picture having a splendid \$400.00 Baumeister piano delivered to your home and placed in your parlor, without trouble or cost of any kind. Still other valuable articles of the most pleasing and desirable character are to be turned over to their winners immediately following the close of the contest. The three fine Victrolas, the two watches and the two Kodaks will all carry with them much lasting service and they will long be objects of pride and delight for the fortunate individuals that will win them. The value of these many prizes is not all, neither is everything said when their momentary value is mentioned for they will carry with them the good wishes of hundreds of friends of the contestants, and the great honor that will accompany victory in such a popular and high class enterprise.

When the Contest is Over
When the big campaign is ended and the many prizes have been turned over to the winners everyone will be glad for any part they had in helping name the winners. Every per-

son who gave a subscription to the vote credit of any of the ambitious contestants will be glad for the assistance they gave and their only regrets will be that their subscriptions were not for a longer time and their cooperation more substantial.

Each subscription to the Progress, for six months or more, handed to any of the contestants at this time or turned in direct to this office, for the vote credit of any candidate, will play a part in the naming of the winners. There is no extra charge for the voting and the votes are issued on old or renewal and arrears payments, as well as on the new subscriptions. An old one year subscription will mean 2,000 votes, a new one year subscription 3,000 votes, a two year one 6,500, a three year one 10,000, and a five year new subscription 20,000 votes. The opportunity to cast your votes for the candidate of your choice is yours, the time is ripe, and your candidate will appreciate your courtesy. Do not neglect this matter now but vote today.

OUR DAILY BIRTHDAY PARTY

Rt. Hon. Walter Hume Long, the British cabinet member who is given chief credit for getting the conscription bill through parliament, born at Bath, 62 years ago today.

Mary E. Wooley, president of Mt. Holyoke College, born at South Norwalk, Conn., 55 years ago today.

Dr. William J. Tucker, president emeritus of Dartmouth College, born at Griswold, Conn., 77 years ago today.

Rear Admiral Samuel P. Conly, U. S. N., retired, born at Woodbury, N. J., 67 years ago today.

Dr. George Leslie Omake, president of Ursinus College, born at Greencastle, Pa., 45 years ago today.

ACCUSED OF TAKING CITY FUNDS.

Tampa, Fla., July 13.—The case of J. L. Hollingsworth, the former city tax collector, who was indicted some time ago on a charge of embezzling some \$29,000 of the city's license tax money, came up for trial today in the criminal court. The trial promises to be one of unusual interest. Hollingsworth's defalcation are said to have extended over a period of several years. He was in the eighth year of continuous service and had been nominated in the city primary for another term when the alleged discovery was made that he was short in his accounts.

DAILY LESSON IN HISTORY

One Hundred Years Ago Today
1816 — Hiram Todd, who established the first grape-growing belt along the southern shore of Lake Erie, born at Poultney, Vt.

COMMISSION TO STUDY MEXICAN PROBLEMS SOON

And American Government Will Appoint The Members on Commission

AGREEMENT IS DISCUSSED

Washington, July 13.—(By United Press)—A Mexican-American commission will be appointed by the respective governments to study the Mexican problems, it was learned today from authority of one who is in touch with the Carranza government. The commission plans have not been completed, but will be finally decided in a few days. It is however present upmost in the minds of those who are negotiating for settlement.

The meeting of the commission will probably be held at some northern resort. The Mexican Ambassador Arredondo has been in conference with Secretary Polk today. The American Ambassador to Mexico has acted as interpreter.

It was learned after the conference announcement that it was concerning the details of a proposed agreement between the two governments, and that it may be expected in a few days.

WAITING FOR LUNAR ECLIPSE.

Washington, July 13.—Astronomers at the United States Naval Observatory here, like their fellow-scientists at other parts of the country, are turning their instruments for observation during the almost total eclipse of the moon, which is to take place tomorrow night. The eclipse will be visible in all parts of the United States, wherever the weather conditions are favorable.

The moon will enter the shadow of the earth at 9:18 P. M., Eastern standard time, and the beginning of the eclipse. No annular eclipse will be noted at this time, but it will gradually lose some of its brightness, while retaining its circular shape. The earth's shadow, however, will gradually encroach on the bright disk until at about 10:30 P. M. nearly 80 per cent. of the surface will be covered. The shadow will then begin to pass off, the eclipse ending at 1:12 A. M.

The average distance of the moon from the earth is about 239,000 miles, and the width of the shadow of the earth through which the moon passes at the time of an eclipse is a little more than 5,700 miles, or about two and two-thirds times the diameter of the moon. The average length of the earth's shadow is 857,000 miles, so that if interplanetary space were dusty we should see a long shadow tapering off from the earth to a point some 857,000 miles away. But as interplanetary space is dusty, we can only infer the existence of the earth's shadow from the light on the moon at the time of eclipse.

NEW TREASURER OF G. O. P. NATIONAL COMMITTEE NAMED

New York, July 13.—(By United Press)—Cornelius N. Bloss, son of the treasurer of the Republican National committee was today named to take the place formerly occupied by his father, and to take charge of the coming campaign of Charles E. Hughes. Frederick W. Uphan of Chicago has been named as assistant treasurer. Senator Penrose was a caller on Mr. Hughes today.

After a conference with Hughes and Chairman Wilcox, it was reported today that it is very likely that July 31st will be the date agreed upon for the formal nomination of Hughes. The nominee is expected to depart for his transcontinental trip soon after, but the date is not yet set. It is understood that the candidate will return in time to make a speech in Maine before the election there September 2nd. The trip is not planned as an election tour.

GIVES RULES FOR TEACHERS

Squared Shoulders Drive Home My plans Study, a Philadelphia Doctor Says.

Pertinent instructions to public school teachers as to the manner in which they shall conduct themselves about the schoolroom so that they may be an example to their pupils were given by Dr. Edward Martin, member of the Philadelphia board of education, who presided at a health conference of principals of the public schools.

"Brace up, have a correct carriage and be able to look others in the face," Doctor Martin said to the several hundred teachers who attended the conference. He commented on the excellent carriage of the West Point cadets, and told the instructors that they should go with squared shoulders before their pupils.

During the Spanish-American war, while he was on inspection duty in the South, Doctor Martin said the standing of a regiment always could be predicted by looking at the officers who commanded it. If the officers walked erect and with vigor, the troops usually were like them.

Want Beardless Soldiers.

Domestic crises confront attested married men with beards. Before they present themselves to the British army, they will be required to remove that long cherished possession. "No beards" is the rule in the army, section 12 of the King's Regulations providing that the chin and underlip will be shaved, but not the upperlip. Whiskers, if worn, will be of moderate length. The result, according to a London paper is that attested married men with beards are faced with a grave domestic crisis. "My wife," said one bearded armistee, "has never seen me without a beard. I was bearded when we first met. How do I know what she will think of me when she sees my chin?" Another bearded late group man intends to join in his beard and let the army authorities do the execution he has not the heart to wreak himself. He has a notably large and flowing beard. A military authority was firm on the point. "Men who join their groups would be well advised to leave their beards at home," he stated.

REINFORCEMENTS FAR TO CHECK ALLES ADVANCE

The Fighting on Somme River Enters Third Phase When Germans Strengthen Lines

Armies Locked in Hand-to-Hand Fighting in Many Sections on a Wide Front—Bloody Struggles Reported.

London, July 13.—(By United Press)—The fighting along the Somme region entered into its third phase late this afternoon, following the arrival of strong bodies of German reinforcements. Activity was renewed along the greater part of the British line today and points on the French line both north and south of the Somme.

The latest advice from British headquarters, authorized by General Haig, reported that strong German forces have begun a series of severe counter-attacks against the British lines and that the British have been forced backward slightly at several points. The Germans regained some lost ground in the Mametz and Trone woods, but elsewhere their counter-attacks were repulsed.

The German war offices stated this afternoon that there has been practically no interruption in the fighting since Monday. The two armies are locked in a hand-to-hand struggle in many sectors of the wide front reaching the Bataune-Albert road.

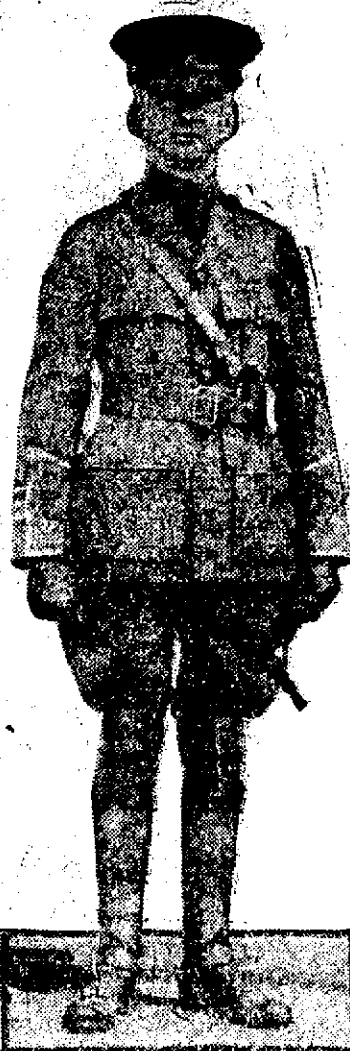

Near Contalmaison the fighting is particularly violent. Sanguinary actions are occurring in Mametz and Trone woods. General Froh's army battling to reach Peronne, and the German forces defending that town continue their bitter struggle south of the Somme.

There has been no important change during the last 24 hours, according to advice late yesterday afternoon. The French recaptured several positions in last night's and yesterday's fighting.

Mametz Wood, north of the Somme was entirely in the hands of General Haig's forces tonight. The British troops carried it in a series of bloody infantry attacks followed by heavy artillery preparation, according to announcement received here. Two strong German counter attacks are repulsed at Contalmaison. Sweeping successes for the Russians at Causaux front, and for the Italians on the Treviso were reported in Petrograd and Rome bulletins. The Italians are believed to have carried Tolmino.

"Daylight-Saving" Popular. The hands on all clocks on British railroads, post offices, newspaper offices, police stations and other places where business is conducted throughout the night were pushed forward at two o'clock one morning recently to three o'clock, in accordance with the daylight saving act. The new schedule will run until September 20, when clocks will be stopped for an hour. Factories, banks, stores, trains, theaters and restaurants will all conform to the new time schedule. The Scandinavian countries, France and Holland also have adopted the scheme of daylight-saving initiated by Germany, and several Canadian cities, including Halifax, have fallen into line.

AMERICAN FOR CANADA

LIEUT. COL. R. J. BATES

Lieutenant-Colonel R. J. Bates is commanding officer of the new 213th Battalion, American Legion, now being recruited in Toronto. Lieutenant Colonel Bates was formerly commanding general of the Michigan National guard, holding the rank of brigadier general. He commanded a battalion throughout the Spanish-American war.

JUNIOR NAVAL CAMP.

New London, Conn., July 13.—Everything is in readiness for the opening tomorrow of Camp Dewey, the training station of the United States Junior Naval Reserve. The camp is on the Thames River, near this city, and has accommodations for 300 boys. The boys will be taught the elements of nautical science under the direction of naval officers.

Subscribe for the Progress.

U. S. EXPORTS FOR 1916. LARGEST IN NATION'S HISTORY

Washington, July 13.—(By United Press)—The foreign trade of the United States for the fiscal year just closed exceeded \$6,500,000,000, according to official estimation of the United States bureau of foreign and domestic commerce. This amount is more than \$1,500,000,000 over the previous fiscal year, and is the largest total in the history of American commerce. The imports for the 1915 fiscal year were \$2,180,000,000 more than for 1916 fiscal year.

Seven articles compose one-half of the entire amount; they are sugar, \$260,000,000; rubber, \$159,000,000; hides, \$157,000,000; raw wool, \$146,000,000; raw silk, \$122,000,000; coffee, \$117,000,000; drugs, \$180,000,000. All these amounts are big increases over 1915. Automobile exports were over \$123,000,000, against \$68,000,000 last year. Oats and corn showed big increases.

Big Business Recognizes Publicity.

By BREEN.

In latter years the biggest enterprises in this country have recognized the value of advertising. The men in charge of their advertising campaigns are paid splendid salaries. In fact, no branch of the business receives more attention. Publicity and advertising form the keynote of success.

If big business needs advertising doesn't small business need it?

Every man in business needs advertising. If his business is a success he needs advertising to keep it so. If his business is struggling liberal advertising will build it up.

Why

so many Repair Bills

If there's one thing more than another that sours a man against motoring and makes him wish he'd stuck to the horse-and-buggy, it's having to dig down every week or so to pay for some darned thing that has gotten out o' kelter. Correct lubrication will help to keep your car out of the repair shop and your hand out of your purse.

Atlantic Polarine is "correct lubrication" for eight out of ten cars. Under certain conditions, one of the other three principal motor oils—Atlantic "Light," Atlantic "Medium" or Atlantic "Heavy"—may give better results.

But, in all events, at least one of those four oils is the one best suited to your particular needs. Ask your garageman which.

Atlantic Motor Oils are to correct lubrication what Atlantic Gasoline, the accepted standard, is to correct fuel. In either gas or oil, you can't go wrong on "Atlantic."

Drain your crank-case, wash it out with a little Rayolight Oil, put in a fresh supply of pure, honey-clear Atlantic Motor Oil. You'll have fewer bills for repairs and be glad you took the advice of oil experts.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garageman for it. If they cannot supply you drop us a postal and the book will be sent you without charge.

LABOR FINDS READY MARKET IN ALL LINES

Building Operations Numerous
In Every Part of Town
At The Present

CONTRACTORS ARE RUSHED

At no time in the history of Clearfield has there been so many laborers and skilled men in demand as there are at present. Everything is on the move on outside work since the wet weather period of a few weeks ago is past. It is not a big boom that has fastened its clutches on Clearfield but rather a steady growth of business in every line that demands more elbow room in the way of homes, business houses and substantial public improvements.

One hundred and eighty thousand dollars is now being spent by the city governments of Clearfield in public conveniences. The new High school building is being rushed to completion with a regular army of skilled laborers in brick, in steel and in the different trades and arts. The building when completed will be looked to with pride and will result in a renewed interest in educational work in the community. About \$80,000 will be spent in the near future in making the public highways of Clearfield the envy of outlying towns. About fifty men are now engaged in this work and the number will be increased until probably hundreds will be at work.

Labor is very much in demand and there is a chance here for the high school and college student to earn good money during their vacation at healthful and instructive work. The laying out, grading and cost calculation of a street is a mere knowledge of mathematics but the executive or superintendent over the work must be practical, hence the student can get practical work here that will dole tail with the theory he gets at college.

The public service company operating here is advertising for laborers on its gas mains and other enterprises. In fact one can hardly go out on the street without finding someone looking for workers, not alone at ordinary labor but in the arts and sciences.

The silk mill has begun the construction of four large double houses for renting to their employees. These houses are of good construction and are a credit to the company building them. This company has made a wonderful record since locating at Clearfield. It gives employment to a very large number of people and is very careful to throw the proper environment around its employees. Any one not having the best of references need not apply to them for employment.

A very large number of bricklayers, carpenters and laborers are being employed in the East End on homes. E. R. Williams is building a cottage on the corner of Dorey and Sixth streets. George Raymond is building a home on Dorey and Ninth street. Steve Capelle is erecting a brick house on the corner of Daisy and Thirteenth streets. William Porter is building two houses on Daisy street between Fifth and Sixth streets and another large house is being erected on the left hand side of Daisy street beyond Thirteenth street.

In other parts of town building operations are being carried forward with a rush and as fast as material and labor can be had. Valentine Stuby is making extensive alterations to his home on Weaver street. Frank Gilliland, the grocer, will soon start the erection of two houses on Fifth street near Locust.

Summing up the general labor situation in Clearfield it can truly be said that there is every chance in the world for laboring men here. Prosperity is evident everywhere and everybody is confident that there is good times ahead. The Chamber of Commerce is still busy on industrial propositions and is making good headway towards landing them.

GLEN RICHEY

Don Gingery of Clearfield, was a visitor in town yesterday.

V. K. Rowland of Westover, spent the day visiting the mines near Glen Richey.

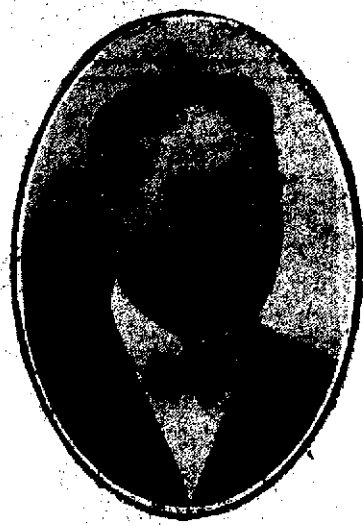

E. F. Harvey of St. Benedict, spent yesterday in town.

Andrew Lind, of O'Shanter has gone to Clearfield to see his son, Robert, who is a patient in the hospital.

The Ladies Aid Society of the Presbyterian church had a little picnic in the grove yesterday.

Mrs. Frank and Mrs. John Shaffer, of Bloomington, were in town yesterday.

Miss Constance Fisher spent the day in Clearfield.

THE LATE OSCAR MITCHELL

CLEARFIELD AN IDEAL SHOPPING CENTER OF CO.

Many Up-To-The-Minute Stores
Offer The Choice
of Everything

COMFORTS FOR SHOPPERS

Clearfield, the careful county seat of Clearfield county has always been noted for its splendid shopping facilities.

It is customary for the people of the villages and small towns to go to the nearest large town to do their shopping for the merchants of the villages cannot supply their customers with all the variety of articles which are needed. So when Clearfield started to grow the storekeepers deemed it wise since Clearfield was the county seat and also had many hamlets surrounding it to stock their places of business with a large quantity and good variety of merchandise and materials so as to make them attractive to the residents and out of town visitors.

It was soon found out that we were to be a center for shoppers and also for marketing as the farmers would bring the best of their products to our markets, then the merchants saw that they would have to enlarge their store buildings as well as their stock of goods.

The fame of the wonderful advantages and offers of our merchandise, clothing, shoes, hardware and grocery stores spread so quickly that now daily we have shoppers from Philadelphia, Osceola, Houtzdale, Kutztown, Snice Show, Irvona, Coalport, DuBois, Mahaffey, Curwensville and all the villages far and near.

The merchants are to be congratulated on the large part they have done in putting Clearfield on the map and making it what it is. The stores are not wholly retail but wholesale as well. They are very accommodating, for if anyone inquires for something they do not carry, they very kindly offer to find out about it and send for it. They offer you the best of everything and at the best prices possible.

After the shoppers have finished their shopping the Woman's club, Leitzinger Bros. and Shapiro's stores have furnished delightful rest rooms both accommodating and convenient which are a lure to out of town guests. Then at any time during the day tasteful, well cooked and home-like meals and lunches can be had at Ralph Jordan's restaurant and cafe. Those detained over night can find splendid and suitable accommodations at the best hotels in Central Pennsylvania.

Thus with all these opportunities Clearfield can well be called the ideal center for shoppers both at home and abroad.

BIG RALLY OF ENDEAVORERS AT ATLANTA.

Atlanta, July 13.—Full of enthusiasm for a successful meeting, thousands of members of the Society of Christian Endeavor trooped into Atlanta today for the first big All-South convention of the organization. Hundreds of delegates and visitors are here from Texas and Arkansas, from Tennessee and Kentucky, from Florida and Virginia and from all the interesting intervening commonwealths.

The convention program covers four days and provides for daily public meetings and numerous department conferences. Among the prominent speakers to be heard at the public sessions will be Secretary of War Newton D. Baker, Daniel Poling, noted temperance orator and possible candidate of the Prohibition party for president this year, and the Rev. Dr. Francis E. Clark, the founder of the United Society of Christian Endeavor.

PARK BONDS BEING SOLD AT FAST RATE

Committee Determined to "Put
Deal Across" With Help
Of Business Men

NEW SUBSCRIPTION RECEIVED

The list of subscribers for first mortgage bonds on the Clearfield Driving park is still growing, reports showing that two hundred dollars more has been signed for and that many of those who have already subscribed are willing to raise their amount considerably. It is estimated that over eight thousand has already been promised but only \$5,700 signed for.

It is the desire of those back of the movement to have as many people as possible in this proposition as it is one which will be of great benefit to the town and they do not wish only a few of the men to put up all the money needed to "put the deal across."

The success of this movement is of more importance than most of the people of Clearfield can realize. This town has for many years been in need of a recreation place and an amusement park and this is the one opportunity to get these. The Driving park is the only suitable location for places of this sort and to miss this good chance to bring a much needed park here, would be the greatest mistake made in years.

The park will not be used only as a recreation park and amusement park but also as a fair grounds which will bring much money into Clearfield each year and which will act as a stimulus to the farmers to raise better crops, better stocks and better fruit. The result of all these will be in bringing much more money into the county by increased exports. It will help every business in the county and also the working people by bringing about better produce at as low if not lower prices.

Everyone connected with the proposition is very optimistic at the outlook. They have determined to raise the needed money and buy the park and also put the necessary improvements on it. Many more business men have expressed their willingness to help in the proposition and it is now a matter of only a few days before the park will exchange hands. The committees are hard at work and expect to have enough money raised by the end of the week.

FIRST WARSHIP BUILT HERE FOR SPAIN.

Boston, July 13.—The first warship ever built in the United States for Spain—a 196-foot submarine capable of cruising nearly 500 miles without renewal of her fuel supply—is to be launched at the Fore River shipyards at Quincy. After receiving her finishing touches she will be tried out in Massachusetts Bay and will then be ready to go into commission. Whether she will be taken direct to Spain under her own power is not known here but it is believed that she will not, especially in view of the possible danger that she might be mistaken for a craft belonging to one of the warring powers.

Snap Shot of Two Clearfield Boys On Way To Border

WILLIAM YOUNG, 18TH REGIMENT, N. G. P.

This photograph of William Young and his mother, Mrs. Philip Young, of Locust street, was taken in the N. Y. C. Yards on July fifth, during the stop of the Eighteenth Regiment here while on its way to the Mexican border. William joined the regiment last summer in Pittsburgh.

FRANK SCOG, 18TH REGIMENT N. G. P.

This photograph of Frank Scog and his mother and two small children was taken during the lay over of his regiment here on July fifth. The picture shows him on the platform of the car which will carry him to the Mexican border.

NATIONAL EMPLOYMENT BUREAU FOR WOMEN READY

Washington, July 13.—(By United Press)—Uncle Sam's all ready to help his women and girls get jobs.

Organization of the recently created Women's & Girl's division of the United States employment service of the bureau of immigration now is on a working basis, Commissioner General of Immigration Caminetti announced here today.

Branches of this bureau have been established in all the leading cities of the country. They are in charge of women. Uncle Sam's investigation disclosed that women and girls don't like to deal with men when they go to

an employment bureau, that's why.

The service stations will give special attention to the requests of women wage earners for work and to meeting the demand for female help in rural as well as urban communities.

If a woman in Des Moines wants a job in Kansas City but doesn't know much about conditions down there, she will be told by the bureau. Detailed information about pay, hours and general conditions will be placed at her disposal by the bureau.

If the woman wants to get into a certain kind of work but doesn't know enough about it to be efficient the bureau nearest her home will provide her a vocational training course along

that line and be hunting a job for her meantime.

Each bureau is responsible to the government for the sort of places it sends the women who ask for jobs. The women in charge of the bureaus must "protect the women and girls from exploitation and misdirection, and no woman or girl shall be directed to an opportunity unless the character of the place and the employer has been established to the satisfaction of the officer in charge."

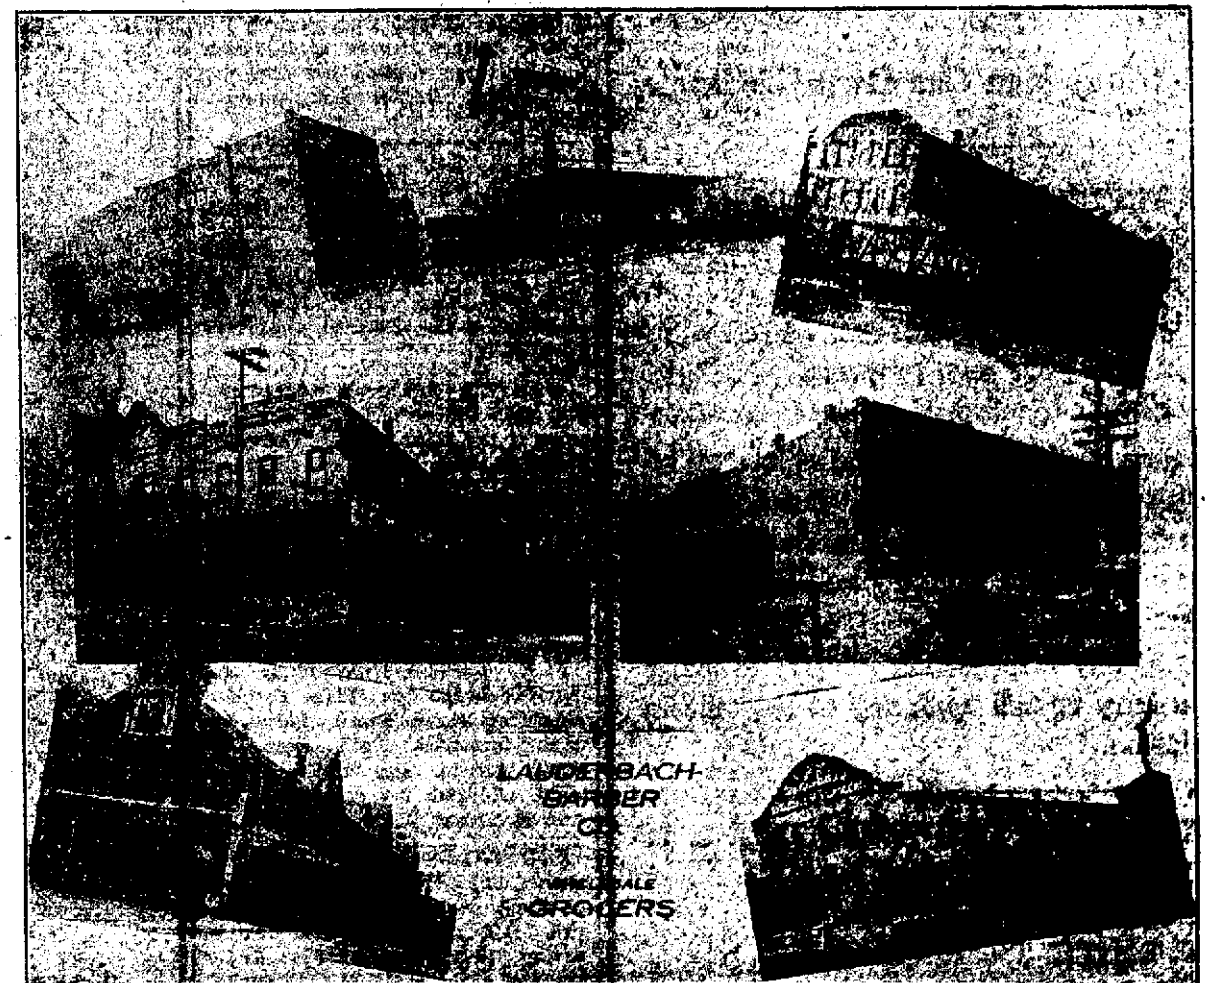

The factory owners and business men of the United States are urged to cooperate with Uncle Sam's women agents in getting efficient female help placed in the right jobs.

Send Drinkers to Front
On account of a diminished output of munitions, due to drinking, the French minister of munitions has issued instructions that any munition workers found under the influence of alcohol shall be immediately sent to the fighting line.

The explanation is given that the penalty is not in the nature of punishment, but because the man in question is unlikely to experience the temptations at the front.

Power Lifeboats
Several of the larger power lifeboats which are used either to search for or tow coaled boats at sea.

Population of Mexico Will Welcome War of Intervention Now

Paseo, July 13.—(By United Press.) The civil population of Mexico would welcome war, intervention to relieve the present situation. This is the substance of a statement made by Ramon San-
crista, president of the national railways, who stopped here on his route home in San Antonio. He explained that in the last three months hundreds of people are starving in Mexico. Villa is getting control of the northern part of the country and will soon have control of every section in the north.

Goethals Expected to Resign As Governor of Canal Zone Today

Panama, July 13.—(By United Press.) George W. Goethals is again hand his resignation as Governor of the Panama canal zone. It is expected that the president will accept the resignation and Colonel Chesnut will be named as his successor. The House, following a conference between the President and the House, authorized the following resolution: "Resolved, That the President be and he is authorized to accept the resignation of George W. Goethals, Governor of the Panama canal zone, and to appoint Colonel Chesnut as his successor."

Why Pay Rent?

Every Industrious Man Can Own His Home

The Truth In Advertising

You've heard about the nation-wide movement against misrepresenting goods for sale.

Here's our viewpoint: we're in business to increase sales from year to Year.

To do this requires the confidence of the people. And to get this confidence, truth is an essential.

We believe that every article we sell, whether it be a collar button or a suit of clothes, is worth every cent we ask for it—sometimes more. We want you to feel the same way after you buy a thing.

If you should not feel that way, the greatest favor you can do yourself and us is to bring it back and give us your reasons. We're open to argument and want you to be, too.

Will you come in and pass judgment on our Summer stock?
